

Enabling Turnitin® in an Assignments Folder

1. New folder: click on “**New Assignment**”

2. Existing folder: click on the drop-down menu icon and select “**Edit Assignment**”:

3. Setting up the use of **Turnitin**:

The screenshot shows the 'Turnitin® Integration' settings page for 'Folder A'. The page has tabs for 'Properties', 'Restrictions', 'Objectives', and 'Turnitin®'. The 'Turnitin®' tab is active. The settings are organized into sections: 'GradeMark®', 'Originality Check®', and 'Frequency'. A 'More Options in Turnitin®' button is at the bottom.

Must check "Enable Grademark" first

Check box to make connection to Turnitin and enable the GradeMark tools

Option settings for automatically "pushing" grade to the Assignment folder grade space or manually with a "switch".

Check box to enable the Originality Checking

Option to allow (or not) students to see their Originality Check results

Options for either checking all students submissions or selecting certain individuals

Click button for more optional settings in Turnitin

Note: Start, Due, and End dates must be set before Turnitin can be enabled.

4. When finished with set ups, **Save and Close** (or **Save** if work is still needed on the other Assignment folder tabs). An icon will now accompany the folder name in the list:

The screenshot shows a list of folders. The first folder is 'No Category'. The second folder is 'Jim' work folder', which has a dropdown arrow and a small icon of a person with a key next to it. A red arrow points to this icon.
