

## Role Switch – Instructor to Student (and back)

Click on your name for your Personal Menu. Role switch is the first item.

To return to the instructor's role:

Note: This Student Role is only a generic role that will show you what students see for most things, however in order to see how everything looks or operates from a student's point of view, you will need to be enrolled as a student. Proxy student roles (test students) are available for faculty through DETI. Just submit a [DETI Service Ticket](#).
