

Chapter 5

Scenario 4: Neighborhood Canvass Report Transcript

On April 16, 2016 you responded to 421 Elm Street and took a theft report for a John Deere lawn mower. You learn from the homeowner, Jerry Jones, that he kept his lawnmower under the deck of his house. While you were there, you noticed that Mr. Jones has close neighbors on both sides of his house and a home directly across the street. You decide to canvass the neighborhood to determine if anyone saw any activity during the time Jerry Jones and his family were on vacation. You talk with Randy Taylor who lives at 419 Elm St., next door to Jerry Jones, and Katie Hill, who lives at 412 Elm St., directly across from Jerry Jones. These neighbors tell you that they did not see any suspicious activity at Mr. Jones's house while he was on vacation. However, Kevin Rowes, who lives at 423 Elm St., said he remembers seeing a young boy pushing a lawnmower in his neighbors' backyard. He remembered it was about 2:00 p.m. on April 12. The boy looked to be about 16 years old. He said he was a Caucasian male with long shoulder length blonde hair. He described this boy as being about 6 feet tall with a thin build. The boy was wearing blue jeans and a red sweatshirt. Kevin Rowes said he thought the boy was going to cut the grass while Jerry Jones and his family were on vacation, so he did not pay close attention. Mr. Rowes said he had not seen that boy in the neighborhood before.
